

## Recommended Licensed Asbestos Investigator

Please call the asbestos investigator directly and arrange for a time for the inspection.

All financial arrangements should be worked out directly with the Asbestos Investigator.

Cell 917.669-4846

1. An asbestos investigation is required for virtually all applications submitted to the Building Department unless a Building was constructed after 1987.
2. The Asbestos Investigator will need a copy of the filing plans to do his investigation. If you have a set, please give it to him when you meet him. We can also supply a copy directly to him
3. Samples will be taken of the portions of the premises where work will be done.
4. The Investigator will supply us with 4 original copies of an ACP-5 (Not an Asbestos Project) if a minimum amount of asbestos is discovered or if the premises are asbestos free.
